

PP/HDPE/PVC双壁波纹管挤出生产线 PP/HDPE/PVC Double-wall Corrugated Pipe Line Production

广泛应用于市政改造工程、建筑、工农业排水、农业节水灌溉、污水处理工程等领域。是传统水泥管、铸铁管等其它材质管的最佳替代产品。

This kind of pipe is widely used in city reconstruction project, construction, industrial and agricultural drainage, agricultural water-saving irrigation, sewage treatment engineering and other fields. It is the best alternative of traditional cement pipe, cast iron pipe.

管材直径(mm) Diameter	PVC生产能力(kg/h) PVC Output	HDPE生产能力(kg/h) HDPE Output	总功率(kw) Total Power
90-160	300	300	135
110-250	350	400	280
200-500	800	800	550
500-800	1200	1000	680
800-1200	--	1200	800
1200-1800	--	1500	1100
